The institute facilitates faculty and staff to work as a team and update their knowledge and skill to match the industrial and technological development. In a nutshell SVCOP is a right place to acquire knowledge, improve and hone skills with positive attitude. SVCOP aims at personality development through academic excellence and has a firm research tradition with good Research & Development activities.

Importance & Objectives of the Seminar

The objective of this seminar is to create a platform for pharmacy students and faculty to acquire knowledge in Research and Development about the Herbal nanotechnology.

Training in the Nanotechnology and research design can impact a pharmacy student well beyond the completion of the coursework. Research experience will not only benefit a student pursuing a career in this field, but will also provide them with critical-thinking, analytical and lifelong learning skills, which will enable them to handle challenges and situations as they arise. The seminar highlights frontier areas of research in industries i.e, *Advances in Stimuli responsive drug delivery system and Pharmaceutical Industries: Overview and Expectations.*

Who can attend?

All years of Pharm.D., B.Pharm., and M.Pharm. (all branches), Research Scholars Hospital Pharmacists, Industrial Pharmacists and Faculty members from Pharmacy Institutions.
