Three days workshop on “Disaster Management & First Aid Training Program for Student Youth”

28th to 30th Mar 2019

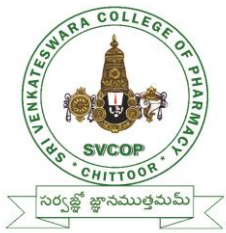

Sri Venkateswara College of Pharmacy organized a Three days workshop on “Disaster Management & First Aid Training Program for Student Youth” exclusively for Pharm.D and B pharmacy. Students in final and penultimate years. Ninety five students and seventeen staff members participated in this workshop which provided a clear intuition into the First aid management.

NEED FOR THE EVENT

In today’s world, multi specialty hospitals and medical advancements are of no use if a medical emergency service does not reach people on time. for instance, Every year, more than 6, 60, 000 deaths occur alone in India as a result of cardiac arrest. The survival rate is less than 1% as emergency medical services do not reach on time and this result in greater than 50% of cardiac related deaths in India. The risk of cardiac death in adults is estimated to be 1 per 1,000 adults of 35 years of age and above per year. About 75 to 80 percent of cardiac arrests occur at home. Hence, being trained in CPR & First Aid can make a big difference between life and death for a victim as the saved life

WORKSHOP HIGHLIGHTS

This workshop was conducted in collaboration with first aid Kit manufacturing unit Guindy, Chennai based organization involved exclusively in training graduates for **Disaster Management & First Aid Training Program for Student Youth**. Day one (28.03.2019) the forenoon session (9:30am -12:30pm) was engaged by **Mr.G.Murali** whose lecture focused on kits available for first aid and its management.
