1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The feedback system is an important yardstick tool to measure the teaching and learning processes in the academic sector. Wherein it gives ideas to justify the students and isolate and educate for the proper suitability to improve individual skills. And also, it improves students' self-confidence, dynamic attitude towards the enthusiastic learning helps the student to think Intellectually to bring newer ideas in their specific field and also it leads to promote higher class with adequate knowledge. Our Institute Framed a committee called curriculum committee whose main objective is to deliver the teaching material with a précised syllabus oriented academic scale up by incorporating pre-determined practical theoretical aspects by discussing the plan of implementation for the entire semester with the panel of experts like a HOD's of various department from the divisions of Pharmaceutical science the foremost moto of the teaching and learning plan which we are adhering is based the students opinion obtained in the early induction period where it is developed the model by interacting with the students during their earlier days of their course after the class we used to supply the questionnaire formatto the individual students and asked to fill by the students. The overall information which is obtained from the students are submitted to Head of the Committee in turn it communicated to the principle of our institution. Simultaneously, the feedback also collected from various stakeholders like parents, employer-employee and visitors. then there will be a scrutinizing committee for the feedback report the feedback from the different sector is analysed and arrived to a solution this solution is put forth in front of the head of the Institutions then it is let to the choice of the head of the institution to add or delete the things, then finally it is strictly followed by all the faculty members including part time faculties, after the acceptance unanimously by all. The collected feedback and its impact will be the boon for the growing institution which can be properly utilised for the upliftment of the students community for their intellectual calibre growth and useful for appreciating the quality in the teaching and learning and evaluation process, hence quality improvement support is a continuous process and an "IQAC" has been followed and developed to give continuous nourishment to the institute to regulate the integrated academic excellence. the management also plays a vital role in the executive feedback analysing systems where they will point out all the stakeholders</p>

feedback and their opinion is criticized by the reviewing meeting is conducted by them, then there will be a guidelines from the management will be guided with external Experts invited by them, as a result finally the college continues to review develop and implement the policies and practical's suitability in area of both students and faculties in the right way of Thinking the ethics and moral principles in the ongoing system which is periodically monitored by the system. Systematic data analysis and it is refined and improved where we are duly exercising the meaningful teaching and learning practices to the students.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentor- mentee systems are the backbone of all higher education institutions it not only assures the better output for the employability for the students but also ensures high enrolment ratio in the particular institution. the national education policy also paves the ways to develop a system of mentorship by experience, distinguished and retired faculty from the various academic area, where our college mentor able to approach students not just as a teacher but also as a mentors and Guides. Mentor teacher and advisor are whose leads the mentee through the proper guidance to Council guide to facilitate the intellectual career development for the individual career. mentor thus offers knowledge to the entire humankind population undergone in the college as an aspirant of education. Making of mistakes in the college life is inevitable but mentor will correct the mistake by telling stories or out of their past experience. Our college has Mentor- mentee system and each staff assigned to have 15 students in the custody, where they will guide them for their entire curriculum, different assessment strategy was followed in all the level of teaching learning areas. starting from faculty class advisor, HOD's of various department and head of the institution side by side and all the information pooled to arrive a solution then it is modified and dictated to the students to improve the performance and regular attendance. The periodic appraisal of mentee is done by taking their marks obtained from the various examinations conducted by the college in turn the results were informed to their parents getting consent from them to improve the status of the students. then there is a periodic monitoring of mentee is done through proper counselling, if required there are additional tutorial classes were arranged for the students those who are all weak as well as scoring lesser credit in their subject, for them there are exclusively attention is paid to brought to the average cadre if possible even he or she may be assisted to prove exilain their curriculum, in the beginning of students program more attention is emphasize on students' performance and personal problems based by the students are cleared by mentors themselves if any of the criteria is able to solve the superior it is to be brought to their notice like principal and director. This sort of supporting nature of the mentors gives to the students a moral support especially when students backed by a single parent family. the mentor role is to improve the communication skills overall in the classrooms for all students which is the root cause of employment opportunity in the present trends in the society by providing a small topic with English as a language topic With the Patriot or any other issues which is current affairs in India. this minimises the fears in the Mentee mind and brings closeness to this staff members and has a lesser hesitation to approach them to get his/her needs in the academic. The Mentorship meeting are also conducted every month. Mentors also maintain the records, pertaining to the

Percentage of power requirement of the University met by the renewable energy sources

Environmental Consciousness and Sustainability Waste Management: Sri Venkateswara college of Pharmacy promotes the concept of reducing the need to dispose off waste as much as possible, and also ensuring proper disposal of whatever waste is generated. Thus ensuring a clean and healthy campus. There are separate dustbins for the biodegradable and non-biodegradable wastes which are placed at various locations on campus. The dustbins are properly labelled with instructions to clearly distinguish the waste. Biological waste from the microbiology and pharmacology department consisting of microorganisms and animals are properly disposed off by following proper treatment protocols and using incinerators. Usage of plastic bags is discouraged within the College premises Littering of wastes is prohibited in the campus. After every program conducted in the college, the students clean the premises and the wastes produced are separated into biodegradable and nonbiodegradable wastes. Use of hazardous liquid chemicals generating hazardous fumes is avoided. The other wastes generated and waste liquids are disposed through well constructed drainage system leading to the closed collection tanks which also collects water from wash basins. The collected waste water is subjected to treatment and then is used for gardening in the summer. These are regularly cleaned. Rain water harvesting structures and utilization in the campus

Response: Being situated in a region with very extreme summers, we realize the importance of conservation and best utilization of water resources. We maintain and generate our water resources.. The college has few bore wells to meet the general needs of the institution. The rain water, which is run off from the higher surface areas, i.e. in the open field and ground, is restricted in a particular area by building mud ridges surrounding the area, so that the water does not flow away but stands in that area and soaks in the ground. This may help in raising the water table of the area. Thus if the water table rises this may result in more availability of the water in the wells. This also results in avoiding soil erosion. Thus the availability of water for the various purposes increases.. For this various lectures and programs are arranged by experts to guide for rain water harvesting and saving water. Charts containing information of methods of rain water harvesting are displayed in college at various places. Students are also motivated to save water. Green Practices Students, staff using a) Bicycles b) Public Transport c) Pedestrian friendly roads, Plastic-free campus, Green landscaping with trees and plants. 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The Institute has established its distinctive approach towards this comprehensive Vision by modelling it in the form of four aspects which are so unique and proprietary to the Institute that it is a part of the Institute's Intellectual Property in the form of a trademark. Four aspects are- (a) Excellence in Academics (b) Exploration of Knowledge through Research (c) Excitement of Innovation Entrepreneurship (d) Exponent for Development of a Rounded Personality with Global Vision and Social Responsibility. Excellence in Academics: A high quality of academic excellence can provide value-added experience for the students. The positive outcomes are achieved by designing the curriculum to meet the global requirements and through teaching-learning methods blended with ethical values. The structured induction of the student into the curriculum enables to visualize the career opportunities and the approach towards achieving them. Exploration of Knowledge through Research: The Institute's determination to be transformed into a centre research excellence through Research Based Learning Teaching. The Research and development cell (R D cell), of the institute is equipped with advanced level research Laboratories to facilitate the academic and sponsored projects and provides the knowledge regarding advanced technologies, enabling the students to carry out inter-disciplinary research. Excitement of Innovation Entrepreneurship: The institute provides a platform to business Start-ups' to develop their ideas into commercially viable products. ED Cell crucially works on generating the excitement in the young brains to produce innovation and thus laying the stones for entrepreneurship. Exponent for Development of a Rounded Personality with Global Vision and Social Responsibility: The institute enables the students to participate in Co-Curricular Activities (CCA) and Extra Curricular Activities (ECA) there by helps to enhance all rounded personality to strongly face the turbulent road of the future. Career guidance, Personal counselling, Training are well structured through a Mentoring Training and Placement (MTP) centre. SVCP has conducted many seminars and guest lectures. Many Pharma experts do visit the college for guest lectures, training program as well as for interviews and placement. SVCP placement cell has developed a strong and huge network with many pharma professionals and pharmaceutical companies. The Sri Venkateswara College of Pharmacy works with objectives: ? To provide the exposure to current research trends in pharmaceutical industry. ? To improve

practical knowledge and technical skill of students. ? To acquaint the students about various aspects in pharmaceutical industry like quality system.
